Biking made easier at Project HOPE

Project Hope at 550 Dudley Street, which holds a silver certification for Leadership in Energy and Environmental Design, received an additional green award last week from Mayor Thomas M. Menino for being a bike friendly business. Special features of the building that encourage biking-to-work include internal bicycle storage, a locker and shower room for bicycling commuters. Above, Anna Yangco, a teacher in Project Hope's adult education program, bikes to work daily from her Dorchester home. *Photo courtesy Project HOPE*
